## Annual Report 2019-20

The 21st century is indeed an era of Knowledge. But the current time emphasizes on action plans to infuse and instill within the youth the spirit of global competition and to encourage them to display their talents to meet challenges of the newer changing order of the world.

Academic rigors go far to strengthen the mind, but extracurricular activities will take this mind strengthening even further. These activities can work to build professional skills that a classroom alone cannot always foster. Extracurricular are not solely about imparting stronger professional skills and supplementing education. These programs are also fun and offer students the opportunity to spend time with others of similar interests. These activities allow students to pursue interests outside of a standardized academic context. Students can also use these activities to explore interests they've never encountered, exposing students to a more diverse range of interests.

The importance of cultural activities is preparing students for real life and strengthening their personal skills. Cultural activities not only help students to identify themselves with the university, but also assist students to develop themselves in a desired field and also improve skills such as organizational, presentation, leadership and interpersonal communication. As cultural activities are of paramount importance, the college encourages all extra-curricular activities that are both in line with the educational objectives of the institution and meet the needs of the students. Culture can be defined as the arts as well as the intangible shared beliefs, values, and practices of a community. Students participate in arts and culture at varying levels of skill and engagement. Together, these formal and informal, tangible and intangible, professional and amateur artistic and cultural activities constitute a community's cultural assets.

Shree M. & N. Virani Science College ( Autonomous), Affiliated to Saurashtra University has always encouraged the students to explore their interests and talent. The institution has always provided the platform to students to show case the talent. Multiple competitions under Saptadhara have always been organized by the college to cater the need of talented youth in the society. The aim of all these activities is to prepare the students for the competitive world and to make them aware about their own strength, apart from the studies. The information about these various activity is as following.
