## Language & Communication Skills

Skills and knowledge are driving forces of economic growth and social development for any country. In parallel to maintaining an academic awareness of the field, adapting skills and attitudes is now inevitable to success, and will prove all the more critical in the years to come.

India is poised to stand out as one of the skilled nations in coming years and it's time for Higher Education & Skill Training to exist in same of curriculum. To enable this, it is very important for the Industry and Academia to work together to generate focussed hands- on candidates with right blend of learning and employability traits.

Life skills allow students to apply the knowledge they acquire to real world problems and situations. The ability to think abstractly and approach problems from multiple angles to find practical solutions, and the skill to communicate clearly and effectively are just as important as technical knowledge in a particular field or academic subject. Having life skills is an essential part of being able to meet the challenges of everyday life.

Life skills provide important tools for development, such as independent thinking, how to socialize and make new friends, and how to take action in situations. Building life skills is essentially an exercise in helping develop sound judgment and good habits for long-term stability, wellness, and success.

It is important for higher education institutions to supplement the curriculum to make students better prepared to meet industry demands as well as develop their own interests and aptitudes. These courses are conducted to help students stand apart from the rest in the job market by adding further value to their resume.

Communication Skill course is a fine way to fill the gaps in the knowledge and add competitive edge to the job prospects. As systems, programs and practices change, making it critical for job-seekers to have a range of competencies, these courses can help to be a winner.

❖ **Ability Enhancement Courses (AEC)** are very important part of the structure. The Ability Enhancement (AE) Courses are of two kinds (**Ref:** UGC Curriculum Framework):

- 1) Ability Enhancement Compulsory Courses (AECC) and
- 2) Skill Enhancement Courses (SEC)
