COMPANY PROFILE

Industry Founded:

1984

• Headquarter:

Hyderabad, India.

• Key people:

Davuluri Rama Mohan Rao (Chairman)

Davuluri Saharsh Rao(Vice Chairman)

• Product:

Apixaban, Brinzolamide, Edaravone, Ezetimibe, Linezolid, Ramipril
etc.

INTRODUCTION

- Neuland Laboratories Limited was established in 1984 and today is a publicly listed company headquartered in Hyderabad, India.
- Neuland is a leading manufacturer of active pharmaceutical ingredients (APIs) and an end-to-end solution provider for the pharmaceutical industry's chemistry needs.
- Our strength is our expertise in manufacturing of APIs and advanced intermediates from our US FDA approved facilities.

Key points

- Quality, EHS and compliance is at the heart of Neuland and across our facilities, with a track record of regulatory approvals (15 successful US FDA inspections).
- Focusing on our API capabilities and providing services such as cost-effective synthesis, IP protection and regulatory expertise we strive to meet all of our customers' API needs
- Helping customers across the full spectrum of the product lifecycle, from preclinical all the way to generic, with over 75 APIs scaled up.
- A dedicated state-of-the-art 3,400m² R&D centre, located near Hyderabad, with approximately 200 scientists.

HISTORY

- Set up in 1984 as a private limited company to manufacture bulk drugs Neuland Laboratories (NLL) is promoted by D R Rao. Neuland Drugs & Pharmaceuticals Pvt Ltd a company set up by the same promoters to manufacture bulk drugs was merged with NLL with effect from Apr.'92.
- NLL manufactures bulk drugs such as salbutamol sulphate terbutaline sulphate labetalol hydrochloride and ciprofloxacin.
- NLL's products are exported to more than 35 countries including Germany Italy Switzerland the UK and the Netherlands.
- The Pashamylaram unit has received USFDA approval for manufacturing of Rantidine Hydrochloride Form.

MANUFACTURING

- Unit I manufacturing facility at Bonthapally adheres to stringent guidelines and requirements of Good Manufacturing Practices (GMP) and is approved by international health and regulatory agencies such as US FDA, TGA (Australia), PMDA (Japan) and WHO.
- A key feature of the manufacturing process is the supervision and the involvement of a committed team which with the help of latest production techniques and calibrated planning guarantees on-time delivery of products.
- Unit I is situated at Bonthapally village in Medak District, which is approximately 65 kilometers from Hyderabad airport.
