Dear Er. Tank,

This is with reference to 5th Meeting of the Task Force held during 18-20th April, 2019 at Pondicherry University, Pondicherry for Star Status Evaluation of your college. The Expert's decision/comment's are as below:

“ No one from the College appeared for the presentation due to Elections duty and had informed the Programme Division beforehand. The Task Force advised to inform the college to attend the next meeting. Till then status quo should be maintained.”

Further, the Task Force reiterated that the Star Colleges should involve maximum number of students under the activities being done under this scheme and that in order to have maximum number of student beneficiaries, the colleges should stress upon procurement of low cost multiple copies of basic equipments required for conducting experiments in the undergraduate classes.

The Advisory committee meetings should be held regularly, at least twice in the tenure of the project, one to be held in the early phase of its implementation so as to guide the college about the scheme and another towards the middle for mid-term course correction, if required. DBT may nominate the task force members for this purpose, if felt necessary. Colleges should ensure that external advisory members should be representing the domain expert area while trying to avoid the potential conflict of interests that might arise due to such nominations.

It was agreed that before uploading any content on website, the colleges should get the documents or compilations etc pre-reviewed by two acknowledged experts in the area and their endorsements with their details should be attached with the contents.

Continue.....2/-

All the Star Colleges are expected to strictly follow National Guidelines for Bio-safety, Ethics for humans, animals etc. Institutions shall be solely responsible for violation of this and are liable to be prosecuted at their cost, risk and consequences.

The college coordinators must ensure their presence for review meetings and any absence by the Institutions or coordinators shall be taken very seriously. The change in the coordinator shall not be allowed for this programme.

It was suggested that coordinators should include a page on budget utilisation and another one describing the quantum of the committed objectives achieved while presenting their progress.

Yours Sincerely,

Garima Gupta
